

You're just a click away from accessing Nevada Certified Applicators On-line!

As you know, many Nevada Certified Applicators Certifications expired 12/31/2004 and are up for renewal. The Nevada Department of Agriculture has implemented a system for accessing and verifying Nevada Certified Applicators Certification Numbers. It's very simple, go to the Nevada Department of Agriculture web site at www.agri.nevada.gov and click on Nevada RUP Certification Program under the heading **PROGRAMS** (to the left of the page), or simply bookmark the following link: http://www.agri.nevada.gov/pest_index.htm#pesticide.

Here you will see the following screen:

***** NEW: To verify a Certified Applicators certification number or to look up a Nevada certified applicator by Name, go to [Kelly Solutions](#) or select one of the following search links:**

- ◇ [Search for a Certified Applicator by Last Name](#)
- ◇ [Verify a Certified Applicator's Certification Number](#)

Additional Nevada Certified Applicator searches can be made by clicking on one of the following links

- ◇ [Search for a Certified Applicator by City, or Zip Code](#)
- ◇ [Search for a Certified Applicator by their Certification Category](#)

At this point, click on the link you want - type in the applicators information: last name or certification number (based on your choice) and choose the type of applicator certification (Commercial, Licensed Commercial, or Private) you wish to search. The results will show up by Name. **Make sure you click on the applicators name you are checking and look at the expiration date(s). The data is historical in nature so expired certifications will show up under the applicators name or certification number.** This screen shows the applicators address on file with the NDOA, the certification categories of the applicator and the expiration date of the applicator. The data is updated daily.

Current Certifications of individual pest control operators (primary principal, principal or operator) are still valid until they expire. Once a certification of an individual pest control operator expires it will not be renewed. There is no change to the current way of handling traditional Commercial or Non-primary Principal Commercial Applicator (C-####) and Private (P-####) Applicator Certifications. As always, check the name of the applicator that will be applying or supervising the application, expiration date of the certification and category before making **any** sale of a restricted use pesticide. Log all sales (Commercial or Non-primary Principal Commercial Applicator, Private and Licensed Applicators) and report those sales monthly to the NDOA.

For any questions, call 1-702-486-4690 or e-mail scottc@agri.state.nv.us

Thank You from Your Department of Agriculture – Environmental Program

January 28, 2005

Dear Nevada RUP Dealer:

There are several ways Nevada Certified Applicators can Purchase Restricted Use Pesticides (RUP). These are outlined below:

Licensees: Only the **primary principal** of a currently licensed pest control companies can purchase, use or supervise the commercial (for hire) use of restricted use pesticides in Nevada. The following license categories would apply:

Agriculture Aerial Categories:

A1- insecticides
A2-herbicides
A3-dessicants and defoliants
A4-fungicides and bactericides

Agriculture Ground Categories:

B1-insecticides
B2-herbicides
B3-dessicants and defoliants
B4-fungicides and bactericides
B5-rodenticides

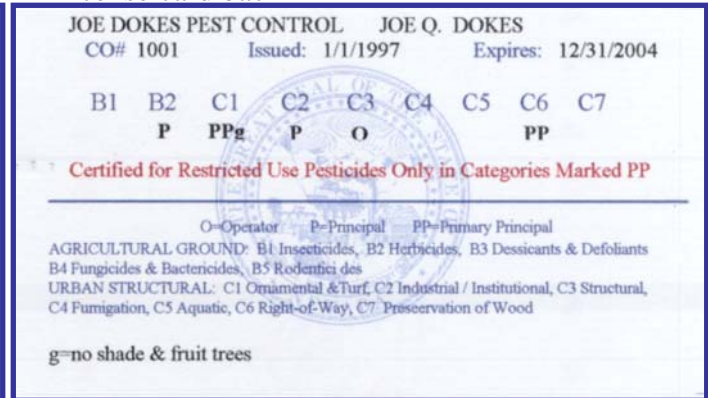

Urban/Structural Categories:

C1-ornamental, turf, and tree
C2-industrial and institutional
C3-structural
C4-fumigation
C5-aquatic
C6-right of way
C7-preservation of wood

License card front

License card back

In this example, Joe would be able to purchase, use or supervise the commercial (for hire) use of restricted use pesticides in categories C1 (ornamental & turf – with a restriction of “no shade & fruit trees”) and C6 (right of way) only. **Joe’s certification number would be 298765 for reporting the sale of a restricted use pesticide. Check expiration date.**

Certified Applicators: There are two categories of certified applicators in Nevada: **Private Applicators (P)** and **Non-primary Principal Commercial Applicators (C)**. On January 1, 2005 the Nevada Department of Agriculture started issuing a new certification card for both Private and Non-primary Principal Commercial Applicators. The following pages show both types of certification cards that are in use by the Nevada Department of Agriculture.

A list of certification cards, by certification year, is attached at the end of this letter.

Private Applicators (P): These cards were being issued starting January 2, 2005.

New Private Applicator front

NEVADA RESTRICTED USE PESTICIDE CERTIFICATE

This will certify that **JOHN P. DOKES**

Has been certified as a Private Applicator to apply or supervise the application of restricted use pesticides in the categories:

ABFU

NEVADA DEPARTMENT OF AGRICULTURE
Don Henderson, Director

Expires December 31, 2008 **P-9999**
